NEXUS TECH SUMMIT 2027

Get Involved: Activity Previews

Illustrative activity content. These pages do not collect answers or submit responses.

AI & Innovation Poll

Example question: Which area would you most like to explore at the summit?
A. AI in everyday workflows
B. Digital transformation
C. Emerging technology demonstrations
D. Practical innovation strategy

For a real event

The activity card opens an organiser-approved Slido or equivalent poll directly. This PDF is a working demonstration preview, not a live poll.

Future Tech Quiz

Example discussion questions:
1. Why define an outcome before selecting a technology?
2. What should be checked when a demonstration uses source information?
3. Who should review unexpected results?

Sample discussion guide

1. A clear outcome helps assess whether the tool is useful.
2. Check permission, relevance and whether outputs match approved sources.
3. Assign an appropriate human reviewer and record limitations.

The production card opens an approved Kahoot or equivalent activity. No quiz engine, score, prize or winner selection is provided by this sample.

Event Feedback

Example feedback prompts:
Which session was most useful?
What could be clearer?
What would you like to see at a future event?
Was the Event Hub easy to navigate?

Your responses

This preview does not collect or send information. An organiser-approved external feedback form will replace this preview for a real event, with its own appropriate privacy information.
